End-to-End range of products

- GK/Retail Business Suite—modular end-to-end solution: GK/Retail Store Operations and GK/Retail StoreWeaver Enterprise Edition for the retail sector to centrally manage large store structures and implementing all processes necessary for operation in the stores
- Advantage of the solutions: 100% Java, release and SOA (Service Oriented Architecture)
- Further sales potential in Germany and abroad by the partnership with SAP possible

GK Software provides the retail sector with the best possible corporate organization and substantial potential for reducing costs and customer loyalty

Global Growth Market

- IT structures in the retail sector allow a company's competitive position to be strengthened through rationalization and customer loyalty activities
- Worldwide IT spending in the retail sector amounted to approx. 177 billion USD in 2015
- In the German chain-store retail market, GK Software has a market share of more than 30%
- Current topics Omni-Channel-Retailing and Cloud-Computing cause a strong willingness to invest in GK Software's target market
- International Sales through SAP increase growth opportunities in the biggest retail market North America
- GK Software products can be used around the globe and this opens up opportunities for further growth (even in so-called fiscal countries)

Investment Highlights

- Technologically leading European provider of standardized, flexible software solutions for the retail sector
- Customer base with well-known companies as a launch pad to tap into other customer groups and retail sectors
- USP from technology and innovation leadership
- Scalable business model opens up significant growth potential in Germany and abroad
- Growth in market environment from an increase in the need for IT investments by the retail sector in Germany and abroad
